Authorization for this examiner's amendment was given in a telephone interview with Kevin Russell on Oct. 27, 2006.

The application has been amended as follows:

Please amend claim 1 part d as follows: replace the word "form" with "from" so that part d reads: "projecting said modified image from said projector, wherein said imaging devices and said projector are maintained in a fixed relationship with respect to each other, wherein at least one of said imaging device is free from being the projector optics from which said image is projected from said projector."

Please cancel claims: 10-23, 44-48, 65, and 67-72.

DETAILED ACTION

Election/Restrictions

2. Applicant's election of Invention I in the reply filed on 8/11/2006 is acknowledged.

Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

3. This application is in condition for allowance except for the presence of claims 10-23, 44-48, 65, and 67-72 directed to inventions non-elected without traverse. Accordingly, claims 10-23, 44-48, 65, and 67-72 have been cancelled (see above examiner's amendment).

Allowable Subject Matter

4. Claims 1-8, 49-64, and 78-83 are allowed.

5. The following is an examiner's statement of reasons for allowance:

The combination of a projection device having at least 2 imaging device wherein at least one of the imaging devices is integral with the projector was not found in combination with all of the other limitations of the independent claims.
